

CELL PHONE TOWER RADIATION HARMONIZER

It is now established beyond doubt that dwelling houses that are located within 500 meters of the Cell Phone Towers are highly vulnerable to TOWER RADIATIONAL effects. The effects of exposure to damaging Tower Radiation ranges from Sleeplessness to Cancer.

RADISAFE-TOWER RADIATION HARMONIZER helps to completely Harmonize the Electro Magnetic Stress inside your living and bedrooms thereby helping you to protect your immune system and enjoy a stress free living inside your house. Needless to say that a continued exposure to Tower Radiation leads to lots of health implications and imbalances.

TECHNOLOGY:

RADISAFE-TOWER RADIATION HARMONIZER employs a Proven Unique Mineral Combination + Scalar Energy Technology to ensure optimum Harmonization of Tower Radiation inside your house. A combination of researched select minerals which are capable of Harmonizing the Electro Magnetic Radiation is packed into a Metallic Pyramidal case, which is Scalar Energized too. This Gadget doesnot require electricity to function, and lasts for LIFE TIME. The area covered by this Gadget is aprox. 5 meters (15 ft) in radius (aprox.covers an area of 675 sq ft). It is advisable to keep this Gadget inside the Bedroom where one spends more than 10-12 hours a day. Keep more Gadgets spread over the total area of the house should you want to protect the entire area of the house.

Aprox wt: 1 Kg
Size: 75 mm x 75 mm x 75 mm

Notes on Harmonizer:

YOU HAVE THE OPPORTUNITY TO PROTECT YOURSELF AGAINST THE MOST DIVERSE FORMS OF RADIATION.

GEOPATHOLOGICAL ZONES

GEOPATHOLOGY is the study of the nature of earthliness, underground water courses, earth faults and energy vortexes, and their effect on our health and well-being. Methods of how to avoid these areas and how to shield against them are described.

GEOPATHIC STRESS is a term that includes harmful energies of all kinds, natural grids, earth fault

lines and water veins, as well as the electromagnetic fields (EMF) of power lines and many household appliances (microwaves, TVs, radios) with a special emphasis on cell phones, computers and computer monitors.

WHAT ARE THE DIFFERENT ENERGY CHARACTERISTICS OF GEOPATHIC STRESS ZONES?

Traditional dowsers are looking first for **harmful energy above underground watercourses**.

Researchers from the middle of the last century describe noxious earth energies within different **three-dimensional grid systems**, mostly oriented North-South and East-West:

Earth fault lines emanate harmful energy above the area of fracture.

Electromagnetic fields (EMF) have a strong draining effect on biological systems, caused by disturbances of:

Power lines feeding into a house, Electrical appliances, mostly through the transformers, but also microwave ovens, TVs and computer monitors, Office equipment: computers, fax machines, copy machines, etc. Mobile telephones and cellphones.

Electromagnetic fields (EMFs) run at 60 hertz or higher. MIT (Massachusetts Institute of Technology) conducted a study in 1990 placing human cells in a 60-hertz environment - much like our high-tech homes and offices. MIT discovered an increase in cell metabolism after just a few weeks. *Increased cell metabolism is one of the mechanisms behind cancer and aging.* Exposure to EMFs contributes to many health problems but now you can protect yourself against damaging EMFs by deflecting or neutralizing these powerful energy fields.

Some experts believe that as much as 80% of all illness could be related to sleeping in a geopathic stress zone. The Energy Harmonizer neutralizes geopathic stress (ground radiation) where you sleep, and much more...

This powerful radionic device is capable of neutralizing geopathic radiation and enabling a deeper quality of sleep. The Energy Harmonizer also takes care of both Curry and Hartman lines and creates a beneficial energy in the room in which it is placed.

The Energy Harmonizer also helps to clear any electromagnetic radiation in a room, whether it is coming from inside the room, from other rooms in your house, or from outside.

The earth emits natural radiation that is beneficial and necessary for mankind's survival on the planet. When this natural radiation passes through underground water veins or

large mineral deposits it becomes altered and can be detrimental to humans. The places on Earth where this happens are referred to as geopathic stress zones.

Geopathic stress is harmful for the same reason electromagnetic radiation from cellphones etc. is harmful. It creates a detrimental energy field that stresses the immune system and impairs the functioning of the body. Studies conducted by doctors in small towns throughout Europe found that virtually every person who contracted cancer had been sleeping in a geopathic stress zone. Findings have also linked sleeping in a geopathic stress zone to Sudden Infant Death Syndrome, Chronic Fatigue and Fibromyalgia. If your baby or child is always scrunched up to one side of the crib or bed, check for geopathic stress. Babies and children can sense it and instinctively try to move away from the source.

The Energy Harmonizer can also harmonize the energies in any room in which it is placed. It is also portable and can be carried from room to room or taken with you when you travel.

The Energy Harmonizer can be placed on a stand or on the wall. In a bedroom it will work equally well if placed under a bed.

The Energy Harmonizer acts like a mini Clear Field Resonator (*see below*), a more expensive product that is capable of clearing a whole house of geopathic stress, electromagnetic radiation, and more.

The Energy Harmonizer employs a unique and advanced silicon based Crystal Catalyst® Dielectric ceramic material developed by a husband and wife team, expert in parapsychology, dowsing, and geopathic stress. This material has been shown to absorb such harmful energy, then transforming it into beneficial, life enhancing frequencies. The Energy Harmonizer also utilizes the principles of Feng Shui and sacred geometry.

In addition to the Energy Harmonizer, other devices (*see below*) are available for protection from specific sources of harmful and obnoxious energy emanations, such as cellphones, household appliances, office equipment and hybrid cars. These resonators can be either worn around the neck for all-around protection, adhered to or placed on an offending device, placed around the home, in a car, or carried upon your person.
