## An ISO 9001 : 2008 Company

### ABOUT COMPANY :

Signal Hawk has been one of the India's Leading Manufacturers and supplier of Test & Measurement Instruments worldwide since 2006. We are an ISO-9001:2008 Certified Company, meets the International Standards for operational, safety, EMI-EMC and are CE marked. We have Wide range of general-purpose T&M products as well as for specific tasks such as performance testing, fault location & Analysis etc.

Signal Hawk believes in leadership & delivery in the field of test & measurement instrumentation and consistently provide customers with Excellent Service, Quality Products and Applications Expertise. Whatever your instrumentation or calibration needs are, we invite you to contact us.

Signal Hawk has a highly qualified R&D department with a long record of technically advanced products. Besides our standard units, we offer everything from minor modifications to customer specific products. Signal Hawk business scope is to create and sell innovative solutions for calibration, measurement and analysis of time & frequency related parameters for the telecommunication and electronics industry.

We serve into Educational & Research Institutes, Defence, Avionics, Space, Telecom & Broadcasting Services, Manufacturing Industry etc. In other words, our instrument to be driven & delivered and are found everywhere where accuracy and quality is required.

### OUR MISSION :

We genuinely anticipate the needs of the end user and give them a best solution up to the satisfaction with competitive price performance ratio. Signal hawk is providing total solutions and satisfaction to our customers.

### OUR VISION :

We leveraging our expertise, experience & strategic acquisition, Signal Hawk stays at the fore front of technological innovative to continually bring advance products & solution to meet our customer's advanced technology needs

### SALES NETWORK & SERVICE GUARANTEE :

Signal Hawk have the strong presence in India & have extensive Sales network with more than 12 offices and 25 distributor across India.

We have well trained service network for speedy service to our customers
